

Allison Transmission Receives 2018 Master of Quality Award From Daimler Trucks North America

November 7, 2019

DTNA recognizes its top suppliers with this award, and Allison is a three-time recipient.

INDIANAPOLIS--(BUSINESS WIRE)--Nov. 7, 2019-- Allison Transmission, the largest global manufacturer of medium- and heavy-duty fully automatic transmissions, announced they are the recipient of the 2018 Master of Quality Award from Daimler Trucks of North America (DTNA). This is the third time that Allison has received this coveted award from DTNA, and is the highest recognition that a supplier can receive.

"The award is a reflection of the company's focus on excellence," said Brett Fisher, Product Development Quality for Daimler Trucks North America.

The annual award program recognizes outstanding suppliers that received high scores on their quality, delivery, technology and cost performance. This year, 45 Master of Quality awards were presented to DTNA suppliers, which is less than 4 percent of their global supply base.

"We are proud of our employees who consistently deliver the high-quality transmissions that meet the rigorous standards set by DTNA," said Rohan Barua, Vice President of North America OEM Sales for Allison Transmission. "Allison is honored to receive this award and to continue to build on our established relationship with DTNA."

Allison employees are proud to welcome DTNA representatives as they recognize the company with a 2018 Masters of Quality Supplier Award. (Photo: Business Wire)

A partner for many years, DTNA is one of the Allison's largest North American OEM

customers. DTNA is a leading heavy-duty truck manufacturer and includes brands such as Freightliner, Freightliner Custom Chassis, Western Star and Thomas Built Buses.

About Allison Transmission

Allison Transmission (NYSE: ALSN) is the world's largest manufacturer of fully automatic transmissions for medium- and heavy-duty commercial vehicles. Allison transmissions are used in a variety of applications including refuse, construction, fire, distribution, bus, motorhomes, defense and energy. Founded in 1915, the company is headquartered in Indianapolis, Indiana, USA. With a market presence in more than 80 countries, Allison has regional headquarters in the Netherlands, China and Brazil with manufacturing facilities in the U.S., Hungary and India. Allison also has approximately 1,400 independent distributor and dealer locations worldwide. For more information, visit allisontransmission.com.
