

Chevrolet to Offer 10-Speed, Fully Automatic Allison Branded Transmissions in 2020 Silverado Class 2/3 HD Trucks

December 4, 2018

GM to produce Allison 10-speed transmission for Chevrolet Silverado 2500/3500 HD trucks

INDIANAPOLIS--(BUSINESS WIRE)--Dec. 4, 2018-- Allison Transmission Holdings Inc. (NYSE: ALSN), the largest global provider of commercial duty fully automatic transmissions, announced today, along with Chevrolet, the availability of a 10-speed, fully automatic transmission in the new Class 2/3, 2020 Silverado 2500/3500 HD trucks. Equipped with the Allison branded 10-speed transmission, the 2020 Silverado HD will debut in February 2019.

"We built the new 2020 Silverado HD with more differentiation than ever before, to meet the needs and priorities of our customers," said Jaclyn McQuaid, chief engineer, Silverado HD. "By offering the new Allison 10-speed, tested and validated in partnership with Allison Transmission, each transmission will deliver the legendary quality and durability that customers have come to expect.

The Allison branded automatic transmission, manufactured by General Motors, combines enhanced performance and fuel economy, greater operational flexibility, and improved driver comfort and control, with an industry-leading reputation for uptime and reliability. Designed for high-performance and low-maintenance, the Allison 10-speed coupled with Chevrolet's Duramax diesel engines provide the superior power delivery and productivity customers demand.

"We are pleased that General Motors continues to expand the range of Allison products available for their customers with the 2020 Silverado HD," said Randy Kirk, senior vice president Product Engineering and Program Management, Allison Transmission. "Allison Transmission and GM have a long history of collaboration and innovation. Recently, Allison Transmission announced production of the 6-speed fully automatic transmission, designed for Chevrolet's Silverado 4500 HD, 5500 HD and 6500 HD medium-duty trucks."

The 6-speed fully automatic transmission, manufactured by Allison Transmission, is the exclusive, commercial-duty transmission for Silverado chassis cab medium-duty commercial trucks.

"General Motors and Allison Transmission engineers have worked closely to provide optimal integration and help drive Chevrolet's hardest-working trucks since the 1950s. As a company, we are dedicated to engineering and manufacturing the most productive and reliable transmissions that improve the way our customers work," said John Coll, senior vice president Global Marketing, Sales and Service, Allison Transmission.

About Allison Transmission

Allison Transmission (NYSE: ALSN) is the world's largest manufacturer of fully automatic transmissions for medium- and heavy-duty commercial vehicles and is a leader in hybrid-propulsion systems for city buses.
