

Allison Transmission Unveils New Innovation Center at Indianapolis Headquarters

March 7, 2022

All New, Engineering Center of Excellence Will Promote Innovation and Collaboration for the Next Generation of Commercial Vehicle Propulsion

INDIANAPOLIS--(BUSINESS WIRE)--Mar. 7, 2022-- Allison Transmission, a leading designer and manufacturer of conventional, electric hybrid and fully electric vehicle propulsion solutions, today unveiled the Allison Transmission Innovation Center, a new 96,000-square-foot facility featuring enhanced product and technology development and validation capabilities to support its customers, industry partners and suppliers.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20220307005936/en/>

At the state-of-the-art facility located on the campus of Allison's headquarters and primary manufacturing base in Indianapolis, Allison engineers will be focused on advancing technology in the commercial vehicle industry to support its mission of improving the way the world works. The Innovation Center is now the home to approximately 300 Allison employees, consolidating engineering teams from multiple locations into one facility. Consolidation of our engineering teams will enhance internal and external collaboration allowing Allison to bring new products and technology to market faster and more efficiently.

"The Innovation Center, along with the recently expanded Vehicle Electrification and Environmental Test Center also located on our Indianapolis campus, will be centers of excellence for the development of enhanced conventional and fully electric vehicle technology to meet the constantly evolving needs of the end markets Allison serves," said Dave Graziosi, Chairman and CEO, Allison Transmission. "These facilities showcase our commitment to maintaining a leading role in powering the advancements of sustainability and environmental initiatives in the commercial vehicle industry."

The company hosted a ribbon cutting ceremony this morning to commemorate the opening of the Innovation Center.
