"Our goal was to win this Dakar and we succeeded. Super well done by Janus, Marcel and Darek winning the rally, and Martin van den Brink and his son Mitchel, who did a fantastic job ranking third and fourth, respectively," said Gerard De Rooy, Team Captain and Owner, Team De Rooy. "This Dakar was one of the toughest ones I remember and one with many surprises. With the Allison fully automatic transmission the teams were able to drive full speed and with full power to the wheels through the toughest terrains."

Nearly 25 trucks that competed in the 2023 Dakar Rally and all Top 10 trucks were equipped with Allison Automatics, the majority of which were Allison 4000 Series™ transmissions. The 4000 Series is designed for medium- and heavy-duty commercial vehicles and is widely used around the world by heavy-duty construction, refuse, fire and rescue trucks as well as defense vehicles.

"Allison is proud to provide Dakar competitors with robust fully automatic transmissions that deliver superior reliability, maneuverability, acceleration and industry-leading performance. Additionally,

Allison Authorized Distributors, including Drive Line Systems (DLS) in the Netherlands and NIMDA in the Czech, play a key part in the success, having collaborated closely with the Dakar Rally teams throughout the years," said Sjoerd Vos, Director of Marketing, Europe, the Middle East and Africa, Allison Transmission. "There's no motorsport rally more demanding than Dakar, and Allison automatic transmissions once again demonstrated their proven ability to perform in a variety of demanding conditions, including steep hills, sand dunes and soft ground."
